Summerfest:

Number of general, public attendance, is very down 1/3 to 1/4 of people came compared to your before. Question what the reason for numbers down could it be advertisement or change of date? Facebook was placed as a post instead of an event.

Vendor sales were way down. Linda reached out to vendors and many agreed to return since they did great in the past. Discussion how to get more people in attendance and make the show a success so vendors return.

Change the date to after the Fourth of July?
